RISHABH ARYA

Data Analyst | Business Intelligence & Reporting Enthusiast

Roorkee, Uttarakhand | +91 7033551292 | rishabh55555arya@gmail.com | linkedin.com/in/rishabh-arya-06329a294 | github.com/Rishabh862

PROFESSIONAL SUMMARY

Detail-oriented Data Analyst with hands-on experience in Advanced Microsoft Excel, SQL, Python, and Power BI/Tableau dashboard development. Skilled in data collection, cleaning, validation, and analysis, with a track record of automating reports and delivering actionable business insights.

SKILLS

- **MS Excel:** Pivot Tables, Power Query, XLOOKUP, Lookup, Conditional Formatting.
- **Data Visualization & BI Tools:** Power BI, Dashboard Development, Reporting Automation, Data Modeling, KPI cards, DAX, Power Query Editor
- **Programming & Querying:** SQL(Join, CTEs, Subqueries, Aggregation,Window Function), Python (Numpy, Pandas, Seaborn, Matplotlib)
- **Research & Analytics:** Secondary Research, Company Profiling, Data Collection, Data Labeling, Insight Generation
- **Analytical Abilities:** Data Cleaning, Data Validation, Exploratory Data Analysis (EDA), Descriptive Statistics, Trend Identification, Data Interpretation,Data Wrangling,Data Transformation,Data Aggregation
- **Tools & Software:** MS Word, MS PowerPoint, MS Excel, Power BI,Jupyter Notebook
- **Professional Skills:** Attention to Detail, Critical Thinking, Team Collaboration, Documentation, Report Writing, Cross-Functional Communication

EXPERIENCE

Data Analyst Intern — Data View Analytics (Remote) *Jun 25-Jul 25*

Tools Used:Basic Excel, SQL, Power BI,Python

- Processed and standardized datasets (10,000+ rows) from multiple regions to support weekly analytics and KPI tracking, ensuring data quality and consistency.
- Automated data cleaning and analysis using Python (Pandas, NumPy), improving data processing efficiency and reducing manual effort.
- Developed interactive Power BI dashboards visualizing revenue trends and performance metrics across business units for stakeholder reporting.
- Collaborated with cross-functional teams to define KPIs, automate recurring reports, and improve data accuracy and strategic alignment.

Employee Attrition Analysis — Green Destinations (Travel Agency) Project

Tools Used: Python, Pandas, Seaborn, Matplotlib, Power BI

- Conducted data analysis on employee attrition using Python to identify key factors driving turnover.
- Analyzed attrition rate and visualized patterns based on age, tenure, income, and department using EDA and data cleaning techniques.
- Built interactive dashboards and derived actionable insights to support HR decision-making.

PROJECTS

Customer Churn Analysis *Python*

- Analyzed 7,000+ telecom customer records to identify churn patterns based on tenure, contract type, and charges.
- Engineered new features and visualizations (box plots, heatmaps) to highlight high-risk customer segments.
- Presented data-driven retention strategies for short-term contract customers, addressing a 38% churn rate.

Sales Dashboard for Regional Performance *SQL,PowerBI*

- Queried and joined 3 sales tables (25,000+ rows) using SQL to build analysis-ready datasets and KPIs.
- Created interactive Power BI dashboards with filters for region, product, and time period comparison.
- Identified a 14% sales drop in the South region post-festival season, supporting marketing strategy adjustments.

AWARDS & CERTIFICATIONS

- **Data Analytics Job Simulation — Deloitee(Jun25):** Completed 8 hands-on case studies covering SQL, data cleaning, and dashboard creation.
- **Data Labeling (Nov2025):** Completed practical tasks in batch labeling, PII awareness, quality control, and iterative data review.
- **Introduction to Business Intelligence — Infosys Springboard (Sept 2025):** Completed course covering core Business Intelligence concepts, data-driven decision-making, and reporting fundamentals.

EDUCATION

B.Tech, Computer Science & Engineering — Quantum University, Roorkee, Uttarakhand *Expected 2027*
